

CHAPMAN STAY BY CAPT. BOELKE

**American Aviator in France
Is Sent to Earth While on
Errand of Mercy.**

Paris, France, June 29.—It was while on an errand of mercy for a wounded comrade that Capt. Victor Chapman of New York, a member of the French-American aviation corps, met his death last week. Capt. Boelke, the most famous of all German aviators, who up to that time had accounted for 18 airplanes sent Chapman to his death. But before he fell the American brought down two German machines.

These details are disclosed in a semi-official statement given out here today, which also announced rewards and promotions for other American aviators. All the members of the corps have been decorated and promoted.

Sgt. Clyde Haisley of San Antonio, Texas, wounded in a fight near Verdun, was probably crippled for life, in a hospital a few miles from the aviation camp to which Chapman was sent. The sergeant asked for an attaché case but there was none to be had. Chapman, Corp. Chapman heard of the incident and set forth in his airplane for the hospital.

Showered in Battle.
While on his way he discovered three German airplanes engaged with four French planes and dashed into the fight. Swinging about the German planes he put his machine gun into action. Two German machines fell to earth. Chapman sent them down all as soon as he entered the combat. Then Capt. Boelke turned on the American and caught him at such an angle that he was able to make the airplane strike a vital spot and Chapman plunged lifeless to the ground within the German lines.

Rewards Given Americans.
For their recent accomplishments, rewards and promotions have been given to Chapman, aviator, a following of Capt. Wm. K. Shaw, of Pittsburgh, the cross of the legion of honor.

Sgt. Kitchener, of Atlanta, Ga., the military model.

Sgt. Berthall, of Bowling Green, Ky., the military model.

All the other members of the squadron have been made sergeants.

**"IF GERMANY IS DEFEATED
LASTING PEACE WILL COME"**

(Continued From Page One.)

by Jules Desreux, socialist member of the Belgian parliament, from Charleroi. Mr. Desreux has been in Italy for a number of months, lecturing and writing on socialist subjects. He has been with the view, it is understood, of maintaining the relations among the socialists that existed before the war.

"International peace must be based on justice and not on armaments," said Desreux. "The German socialists might have prevented the war if they had considered questions of justice rather than that of gain. The trouble with them before the war was that they were always fighting about questions of wages, of salaries, rather than points of justice, and when the war came they voted for it in the Reichstag and despite the declaration of socialist congresses of Stuttgart."

Regarding the political changes that must come after the war, Mr. Desreux said: "There can be none unless Germany is defeated. If they are defeated the socialists will certainly work in every country to see that war does not come again."

"In France and Belgium, however, and probably in other countries at war, the old problems of before the war will not have the same vitality. With Germany defeated, lasting peace will come easily and our immediate problems will be those of reconstruction, of rebuilding our fortunes."

**SWISS ARE SURPRISED BY
A NEW MONSTER ZEPPELIN**

Berne, Switzerland, June 29.—People living along the Swiss border of Lake Constance have been greatly surprised at the movements of the new monster airship, much larger than all other zeppelins, that has been making trial trips over the lake. The length of the ship is said to be 310 yards, or almost double that of other zeppelins. The cubic contents is even more than double, 54,000 cubic meters instead of 28,000, and the number of the gondolas is four instead of two. These gondolas are said to be armed with guns, machine guns, and a new kind of air torpedo.

Despite its huge bulk the ship gives the impression of fish like slenderness. The steering gear forms an exact cross. The motors are 2,000 to 4,000 horse power, able to give the airship a speed of 30 kilometers an hour. To avoid breakdowns, the motors are in double

series.

Many women suffer from a form of indigestion or dyspepsia which does not yield to ordinary treatment. While the symptoms are similar to those of ordinary indigestion, yet the medicines usually prescribed do not restore the patient's normal condition.

There seems to be a kind of dyspepsia caused by crampage of the female organism. While this appears to be the same as ordinary indigestion it can be relieved only by a medicine which, besides acting as a stomach tonic, is good for female ailments. Read what such a medicine did for Mrs. Williams:

She says:—"Before I began taking Lydia E. Pinkham's Vegetable Compound I was troubled with dyspepsia and bearing down pains in my back and sides, and after my meals my stomach would bloat up till I could scarcely get my breath. At times I was so weak I could hardly stand on my feet and I looked hollow-eyed and my skin was yellow. Now I have a good color, have gained in every way and can do my work without any pains. I think it is the best medicine on earth for stomach troubles of women."—Mrs. NELLIE WILLIAMS, 31 West 24 Street, New Albany, Ind.

Special Treatment Required.

EXTINGUISHERS AT P.O. STOLEN

**Federal Officers Alarmed
Over Their Disappearance;
Guards Watch Building.**

Fire extinguishers in the federal building have disappeared mysteriously and the federal officials are making an effort to locate them.

The extinguishers were taken from the hallway of the building and only two are reported to have been recovered.

The disappearance of the fire extinguishers started a report that the federal building was to be the fourth big fire in El Paso within the week. It was hinted that Mexicans were concerned in the alleged plot to burn the old building, but officers have been unable to find anything to substantiate the report.

Guards have been placed around the building, however, and are now working in night and day shifts with orders to arrest anyone seen loitering around the building.

The crew is said to be 26 to 40 men. The ship can reach a height of three to four miles.

**BRITISH UNIONISTS URGE
FOOD PRICE REGULATION**

London, Eng., June 29.—A special trades union congress of 600 delegates representing 2,000,000 organized workers met in London today and adopted a resolution asking the government to take steps to regulate the prices of food and fuel. The mover of the resolution said prices had increased 52 percent, owing largely to the rise in freights and the greater cost of coal.

Still another resolution declares that if the government offers objection to the proposals of the congress immediate steps will be taken to press for such advances in wages as are necessary to maintain a proper standard of living.

The congress also adopted a resolution asking for an increase of fifty percent in old age pensions, during the period of high prices.

**KITCHENER WILL FILE
ESTATE TOTALS \$850,000**

London, Eng., June 29.—The will of the late Lord Kitchener, the British secretary of state for war, who lost his life in the sinking of the cruiser Hampshire off the Orkney, June 5, was admitted to probate today. It shows that he left an estate valued at \$1,714,420 (approximately \$850,000).

The largest bequest was the sum of \$20,000 to his nephew, Henry Hamilton Kitchener, and the Broom Park estate and all lands in Kent county to his nephew, commander Henry Franklin Kitchener of the royal navy, a son of the late lord.

To Col. Oswald A. G. Fitzgerald, Lord Kitchener's personal military secretary, was bequeathed the field marshal's baton, which was with the field marshal when he was killed. His estate was valued at \$1,714,420 (approximately \$850,000).

Three times as Great in Minnesota.
"Minnesota has nearly three times as many people born abroad, or with one or both parents of foreign birth, as she has of pure native ancestry," said the state of Minnesota today. Her population of foreigners and their children totals 1,483,000 as compared with 275,000 for the native element.

Montana has 190,000 people of foreign birth and foreign or mixed ancestry, as against 192,000 of native ancestry. Wyoming gets into the same column by about the same proportion. The state of Washington has 390,000 more of the foreign than of the native element, while California practically breaks even.

Taking the statistics of the male population 21 years of age and upward for the entire country, it is found that only 42.9 percent of them are of straight, white native ancestry. The negro element adds 3.1 percent to this, and the remainder, 41.3 percent, is represented by the men of foreign birth or the sons of foreign or mixed parentage.

**CASUALTIES OF BRITISH
OFFICERS IN WAR, 27,905**

London, Eng., June 29.—Casualties among officers in the British army continue to pile up. Published lists for June show that 466 killed, 1060 wounded and 55 missing—a total of 1581. This brings the aggregate losses since the commencement of the war to 73,905 officers, of whom 574 were killed or died of wounds, 17,424 were wounded and 13,907 are missing.

**RUSSIANS CAPTURE MORE
TOWNS NEAR THE DNEISTER**

Petrograd, Russia, June 29.—The war office announced today the capture of the town of Oberlin, south of the Dneister river, and villages north and south of that point.

**ATTACKS BY BRITISH
AND FRENCH REPULSED**

Berlin, Germany, June 29.—Attacks by the British and French at various places along the western front yesterday and last night were repulsed by German troops, the war office announced today.

**ADDITIONAL REVENUE BILL
IS COMING UP IN HOUSE**

Washington, D. C., June 29.—Democratic leaders said today that the general revenue bill to provide approximately \$210,000,000 for the needs of the government would be brought into the house probably next Monday, and be taken up Wednesday.

PRISONERS MUST WORK
